

E-World energy & water 2019

In 2019 Banca IMI is once again present at E-world energy & water, the leading trade fair for the European energy sector, with more than 700 exhibitors from 30 different countries and 25,000 visitors. During the fair and the related congress visitors are able to find out about current issues in the energy sector (energy trade, information technology and energy services) and to discuss these as well as build networks. Banca IMI is the first Italian banking player active in this sector and takes part to the fair with a booth. Connect to the fair website.
